

USB Mesh Node

Wouldnt it be nice to have more storage space on these mesh nodes?

Or maybe to connect a peripheral to do something with?

Along comes the wonders of USB interconnect!

The Broadcom chips HAVE a USB host built in, just waiting to be used !

Linksys/Cisco just didnt bring them out in the older models.

BUT I DID! 🐛

~~Jim Kinter, K5KTF, is looking for a 4GB stick, but to come up with a solution, some ideas would be appreciated. (I'm not a programmer, but I'm free to comment, and/or if you have ideas of what to use the USB~~
